### **PROPOSAL OF POINT 9 OF THE AGENDA Election proposal for Statutory Auditor and Alternate Statutory Auditor for the three years period 2012-2014**

Considering that:

- a) In accordance with the article 11<sup>o</sup>, n.º 2, al. b) and art. 22<sup>o</sup>, n.º 1, al. c) of EDP's By-laws, the Shareholders' General Meeting shall elect the Statutory Auditor, following a proposal of the General and Supervisory Board or, upon delegation by it, the Audit Committee;
- b) The mandate of the current Statutory Auditor, exercised by KPMG & Associados - Sociedade de Revisores Oficiais de Contas, S.A (hereinafter referred as KPMG) reached its term in 31<sup>st</sup> of December 2011 which requires that the Annual General Shareholders' Meeting should vote the election of the Statutory Auditor for the term of office 2012-2014;
- c) Given the rigorous analysis made by the Audit Committee to the independence and quality of KPMG services as well the consideration of the independence conditions of the statutory auditor and external auditor and the benefits and costs of replacement, the General and Supervisory Board has the opinion that the continuance of KPMG is consistent with the interest of EDP and its shareholders, without prejudice of a future contest for this services, during the 2012-2014 term of office. This position is in line with CMVM Recommendation III.1.3. from the Corporate Governance Code 2010;
- d) In accordance, at its meeting of 8<sup>th</sup> of March 2012, the General and Supervisory Board resolved unanimously:
  - i. To propose to EDP's General Shareholder's Meeting the election of KPMG as Statutory Auditor for the 2012-2014 term of office;
  - ii. To delegate in the Audit Committee the necessary powers to implement this resolution, including the negotiation process with KPMG and propose its election as Statutory Auditor at the next General Shareholders' Meeting;

# Our Credentials

## KPMG

March 2012

Constantly striving to be better lies at the heart of what makes KPMG different.

It is this **state of mind** that sets the quality of services we provide, the career experiences we offer and our contribution to the community.

## About KPMG

KPMG is a global network of professional firms providing Audit, Tax, and Advisory services. We operate in 146 countries and have more than 140,000 professionals working in member firms around the world.

Our purpose is to turn knowledge into value for the benefit of our clients, our people, and the capital markets. Our member firms aim to provide clients with a globally consistent set of multidisciplinary financial and accounting services, based on deep industry knowledge.

### OUR GLOBAL NETWORK

Our international structure is ideally placed to provide the quality of service and audit delivery you expect around the world. We are a truly international organisation, not dominated by any single practice. Our strong global presence helps ensure that you have access to our best people and experience worldwide and that we can respond quickly to your changing needs.

Global capability and consistency are central to the way we work. By providing international organisations with the same quality of service and behaviour around the world, we can work with them wherever they choose to operate.

Our global values and global code of conduct define a common culture within KPMG, including a collective commitment to the highest principles of personal and professional conduct.

KPMG was the first audit firm to organise its worldwide practice to deliver services along industry lines as follows:

Our industry-driven structure has enabled us to develop deep knowledge of our client’s business and to provide them with an informed perspective on the issues they face. It is a strategy that runs across our Audit, Tax, Advisory services and is underpinned by our geographic strength.

Therefore our clients obtain from KPMG more than just audit on their financial statements. As a business, our clients need to know if they are performing in line with the industry sector, and where they can improve.

The benefits of our industry focus for our clients are as follows:

- Worldwide advisors who understand the business, markets and issues;
- Teams including professionals from various locations according to the needs of the client;
- Relevant and practical industry insights and access to leading practices;
- Multidisciplinary teams who are used to work together;
- Increased value through shared knowledge and thought leadership.

**KPMG's Mission**

*"Our purpose is to turn knowledge into value for the benefit of our clients, our people, and the capital markets."*

**WHAT WE STAND FOR**

Today's global, multicultural businesses are a complex mix of strategies, structures, technologies, products, services, risks and commitments. Above all, however, organisations are people. While KPMG's people are trained and focused in pursuit of our business objectives, our shared values are what keep us together on a day-to-day basis and keep us together for years.

KPMG was one of the first accountancy organisations to introduce a global set of values which define the way we work and how we treat our people. We create an environment in which our staff are encouraged to realize their potential through challenging and rewarding career opportunities. We treat knowledge as a highly valued asset and continually seek to extend it to the benefit of our people and our clients.

Above all, we are passionate about the service we provide to clients. Our aim is always to add value beyond their expectations and, in doing so, to act as genuine Partners who are able to make a real contribution to their businesses.

KPMG's values and stability mean we are a network of audit practices which think and operate to high standards.

## Statement of Independence

The reputation of KPMG is built, in great part, upon the conduct of KPMG personnel and their ability to deliver objective and independent advice and opinions. That integrity and objectivity which is present in the work KPMG performs, is of paramount importance in the market in which our firm operates. KPMG firms and KPMG personnel exercise alertness and vigilance in applying KPMG ethics and independence policies, methodology and procedures and in protecting their integrity, independence and objectivity.

KPMG and all of its Partners, Management group and professional staff are required to follow the independence rules of the KPMG International Risk Management Manual, in addition to complying with the norms issued by the 'Ordem dos Revisores Oficiais de Contas', and, where applicable, the Independence Standards Board, the Securities and Exchange Commission and other regulatory agencies.

Each KPMG professional is personally responsible for maintaining his or her independence, regularly reviewing individual financial interests and relationships to verify that they are in compliance with the independence requirements of the firm and the profession. Additionally, firm policies state that no KPMG personnel is permitted to serve other organisations (clients or non-clients) in any capacity (e.g. director, officer, voting trustee, employee, adviser, promoter, or underwrite), that may raise questions as to the firm's present or future independence.

Upon commencement of employment, KPMG professionals are required to complete a detailed affidavit that requires the employee to abide by the applicable independence rules, to avoid a direct or indirect financial interest in an audit client, to refuse favours from clients, to keep information confidential, and to avoid associations with client personnel that would impair the independence or objectivity of the firm. Additionally, KPMG professionals must complete and submit this independence affidavit each year thereafter.

## Controlo de qualidade

KPMG’s internal quality control process, assures the quality of work performed and services rendered.

This description can be divided in two major areas:

- Professional staff;
- Services rendered.

Concerning the services rendered by KPMG, quality control is guaranteed through three fundamental components:

- Risk evaluation of present and potential clients;
- Work methodologies applied;
- Quality control of work performed.

### QUALITY CONTROL OF WORK PERFORMED

The quality control of work performed, is exercised by several means:

### QUALITY CONTROL REVIEWS PERFORMED BY LOCAL TEAMS

In order to ensure a high quality service, KPMG annually performs a quality control reviews of client work performed, mainly focused on the following aspects:

- Review of the audit teams work, in order to ensure prior to the work’s conclusion, the identification of the areas where additional work is needed to cover certain components of the client financial statements;
- Annual revision of a representative sample of work papers of the clients audit files. This revision is performed by a team composed of experienced KPMG professionals (local and international), in order to assure that the work planning and the internal control systems analysis were properly performed, and that the data gathered during these stages allowed the structure and design of audit substantive tests in a way that these tests assured the analysis of all the risk areas identified in the planning stage and, also, afterwards.

### **Quality control reviews performed by international teams**

In addition to the quality control reviews performed by the Portuguese professional staff, KPMG also performs, every three years, international quality reviews of general procedures, risk evaluation procedures and the overall quality of works. These are performed by professional staff of other KPMG offices. This control, allows the sharing and harmonisation of KPMG knowledge at a global level, namely identification of risks that, although only just visible in Portugal are already common in other countries, where analysis and risk minimising tools have already been developed and can be shared.

Both the local and international quality control processes, are performed on a specifically developed software, that allows the systematisation of the reviewers work, and assures, in an interactive way, that all work areas were analysed and the evaluation properly performed and documented. The organisational aspects of the audit work are also evaluated as well as the technical aspects.

### **Quality control reviews performed by external entities**

Due to the fact that, sometimes, our work is used as evidence to support Local Statutory Auditors Firms audit opinions our audit files are subject to quality control reviews of the Portuguese Institute of Statutory Auditors. Therefore, when required, we submit for their evaluation some of the audit work performed during the year, to ensure compliance with the relevant audit standards.

In addition, CMVM (Portuguese Stock Exchange regulatory entity) is also empowered by legislation governing capital markets to perform quality evaluation reviews on the audit firms registered with the Commission. Therefore, when required, we are also subject to quality control reviews performed by this entity.
